

# ValueLink Software's Next-Gen Encompass Partner Connect Integration

At ValueLink Software, we are thrilled to announce the launch of our next-gen integration with Encompass, based on the advanced Partner Connect (EPC) APIs. Specifically tailored for Appraisal Management Companies (AMCs), this next-generation integration is designed to streamline your appraisal management processes, enhance compliance, and improve operational efficiency.

## Key Benefits of EPC Integration:

### Automated Report Delivery

Reports are automatically delivered to Encompass upon order completion, eliminating the need for manual retrieval and upload. Enjoy seamless document handling.

### Field Mapping

Supports both standard and custom fields to ensure all necessary data is accurately mapped, guaranteeing complete and accurate loan files.

### Document Mapping

Delivers individual documents to the appropriate folders in the E-Folder, improving organization, accessibility and ensuring easy document management.

### Single Sign-On

Eliminates the need for password entry, providing a seamless ordering experience with faster access and no password hassle.

### Modern Easy-to-Use Interface

Features an intuitive design that reduces the learning curve, allowing users to navigate and use the platform efficiently, enhancing productivity.

## Enhance Your Appraisal Management

By leveraging these features, AMCs can significantly improve operational efficiency, reduce turnaround times, and provide better services to their clients. As the mortgage industry continues to evolve, adopting innovative solutions like EPC will be crucial for staying competitive and meeting modern lending demands.

## Enhanced Workflow Automation

In the rapidly evolving mortgage industry, AMCs need innovative solutions to stay competitive and efficient. ValueLink Software's integration with Encompass Partner Connect by ICE Mortgage Technology offers a suite of features that streamline appraisal processes, enhance compliance, and improve operational efficiency.

## Comprehensive Solution for AMCs

In the rapidly evolving mortgage industry, AMCs need innovative solutions to stay competitive and efficient. ValueLink Software's integration with Encompass Partner Connect by ICE Mortgage Technology offers a suite of features that streamline appraisal processes, enhance compliance, and improve operational efficiency.

### Enhanced Workflow Automation

Supports multiple transactional workflows, including interactive, one-click, and automated ordering, improving efficiency by automating repetitive tasks.

### Unified Portal

An all-in-one portal functionality enables AMCs to manage all appraisal-related tasks within a single platform, including an improved UI and automated ordering, simplifying the appraisal process and enhancing productivity and user experience.

### Document and Field Mapping

Automated document and field mapping ensures reports and data are accurately mapped to loan files and stored in designated folders, reducing manual errors, saving time, and enhancing organization.

### Real-Time Notifications and Bidirectional Communication

Provides real-time, bidirectional communications, ensuring AMCs receive instant updates, allowing swift responses to lender requests and significantly reducing turnaround times. It also facilitates seamless information exchange, ensuring timely updates and responses.

## Conclusion

ValueLink's integration with Encompass Partner Connect transforms appraisal management for AMCs by offering seamless integration, enhanced workflows, real-time notifications, and robust security. By leveraging this integration, AMCs can improve operational efficiency, reduce turnaround times, and provide better services to their clients. As the mortgage industry continues to evolve, adopting innovative solutions like ValueLink's EPC integration will be crucial for staying competitive and meeting the demands of modern lending practices.
